**Background:**

The CALFED Bay-Delta Program is a cooperative effort among state and federal agencies and the public to ensure a healthy ecosystem, reliable water supplies, good quality water, and stable levees in California's Bay-Delta system. The Water Use Efficiency (WUE) Program is one of several Program elements CALFED is implementing through an integrated approach. The August 2000 CALFED Record of Decision called for the creation of a WUE Subcommittee to advise State and Federal agencies on structure and implementation of assistance programs, and to coordinate Federal, State, regional and local efforts for maximum effectiveness.

**Purpose of Meeting:**

The September 11 meeting – the fourth of the WUE Subcommittee – will offer an opportunity to: 1) provide updates on WUE Program actions and related activities; and, 2) review and consider recommendations related to WUE funding status. Members of the public will be provided an opportunity to ask questions and provide comment. The meeting agenda is provided below.
